Things to know:

The basic requirement for a parachute jump is good physical condition. Skydive Interlaken reserves the right to refuse to allow a client to make a jump if there are safety concerns, even if the limits described below are respected.

Maximum height of the guest: 195cm / 76'

Maximum weight of the guest: 100 kg / 220 lbs

Age: Under 18 years we need the consent of the parents, there is no upper age limit in good health.

Children: Skydiving with children/young people is basically no problem, as long as they made the decision themselves. In addition, the children/young people should be big enough for the harness (this is usually from about 12 years).
